GROVER'S THEATER -Mr. Edwin Booth will to-night appear as "Hamlet," in Shakspeare's great play of that name. Mr. Grover announces that this play is produced at the request of President and Mrs Lincoln, who desires to see Booth in the character of the melancholy prince. It may, therefore, be expected that a brilliant audience will be in attendance.

CANTERBURY -There is a splendid company now playing at this popular resort, and among the most prominent are Miss Dora Dawson, the double-voiced singer, M'lle Medea, the premier danseuse, and the Sanford Troupe of gymnasts, &c. The great ballet of "Kim-ka" will be performed to-night again.

VARIETIES .- Miss Kitty Lee, Miss Maggie Vernon, Miss Maggie Friel, Miss Lina Windell, and Miss Eliza Florence are all pretty girls, and are all now performing at the Varieties, in conjunction with the regular company, and for to night a splendid bill is announced.

THE DAVENPORT BOYS had another large audience last night, and as usual, they excited the wonder of all present. The many startling displays and incomprehensible demonstrations made by these performers certainly excites the curicsity, at least, of the vast audiences in attendance.

MAGICAL Soirees .- Professor Wiseman, the great magician and prestidigitateur, will give another of his magical entertainments at the Washington Theater to-night. Prof. W. is one of the most noted mystifiers of the age, and he always succeeds in delighting large audiences.

DIFFICULTY IN A CHURCH.—Religious Novels and the Slavery Question in McKendree Sunday School.-For several weeks past there has been an unpleasant state of feeling between some of the officers and members of the McKendree Sunday School. The Quarterly Conference of the station it seems, some weeks since, appointed Rev. W. C. Cark to examine the condition of the school, and he reported to the Conference that it did not appear to be conducted on sound Methodistical principles, that many of the books in the library were not of the proper character, and that the school had discarded the "Sunday School Advocate" a paper published by the Book Concern, New York. That body considered the report and declared that the school was auxiliary to the M. E. S. S. Union, and furthermore they endorsed the Advocate and requested the school to subscribe to

Last Sunday week a meeting of the officers and teachers was held, when Mr. James N. Davis read a lengthy paper, which set forth that the school had been misrepresented to the Quarterly Conference, and also protested against the Advocate on the ground that its editor (Dr. Wise) drew invidious distinctions between children living in slave and free States; and also that he had misquoted John Wesley on the slavery question. This paper, read by Mr. Davis, referred especially to Rev Mr. Cook, the author of the report, and spoke of him in not the mildest terms, and was signed by Messes. Harkness and Davis.

A warm debate sprung up on this paper, in which Rev. Mr. Ferris, Messrs. Worthington, Langley and others took part, and the debate got so warm and personal that it was feared that a collision would take place; but before coming to a vote the meeting adjourned to Friday night last, when there was a large attendance.

Mr. Ferris opened the debate, and defended the course of Mr. Cook. He contended that slavery was an evil, and the curse of God was up n it The paper (presented by Mr. Davis) he said, did not contain a fair statement of the action of the Quarterly Conference. Messrs. Davis, Ferris, and Rev. Mr. Thrush

followed, the latter yindicating himself. Mr. Harkness next obtained the floor, undertaking to vindicate his action, and also to defend the school. He referred to the Sunday S hool Advocate, stating that the Editor (Dr. Wise) had drawn invidious distinctions between the children from different States; and he (Mr. H.) read a paragraph from the Advocate to sustain his statement. He also referred to Dr. Wise quoting from Mr. Wesley a phrase bitterly denunciatory of American slavery; the speaker denying that Wesley had used such words, at least in reference to slavery in this country. The action of the General Conference of 1836 met with his views when they discarded the agitation of the slavery question; and he Tro eeded to eulogise the Baltimore Conference for standing out against agitation. He spoke at considerable length of the Sunday school, contending that it was the best arm of the church, and spoke of its oganization 21 years since in a carpenter's shop. From three men in that school the church originated. In conclusion, he hoped that the views of the members might be narmonized, and peace again reign in their borders.

On Monday night the teachers met a third time to consider the subject, and after Mr. Davis had spoken, Mr. Cook got the floor, and proceeded to answer the protest. He reviewed the paper presented at length, and for two hours or more spoke of the standing of the church on slavery, reading from different Methodist authors and the proceedings of the various conferences to show what the bishops and others thought of the peculiar institution. He also spoke at length of the books used in the school, stating that about one half of those in the library were published by the Book Concern, and the otner-many of them being "religious novels"-by other publishing houses. He compared the singing book used in the school-the "Golden Shower"-with those issued by the Book Concern, and designated the former as not being a good Methodist book. He also referred to Mr. Harkness' past course on the slavery question, reading a petition asking the abolishment of slavery, which was

Mr. Harkness said he wished it understood that he held those views still; that he did not complain of Dr. Wise's anti-slavery sentiments, but that he (Dr. W.) had interpolated a quotation from Mr. Wesley. Mr. Cook proceeded at length to defend his course, and concluded at about 11 o'clock, when

signed by him.

the meeting adjourned to meet another evening. THE STEAMSHIP FAIRBANKS .- Yesterday afternoon, upon the invitation of Messrs. Morgan & Rhinehart, a large number of guests assembled on board the steamship Fairbanks, and by their presence testified their appreciation of the enterprise displayed in the establishment of a new line of steamers between Washington and Georgetown and New York. The Fairbanks is a new vessel, but is the pioneer of a number of steamers to be used by the New York and Washington Steamship Company. She is 402 tons burthen, 171 feet in length, 25 feet beam and 18 feet in depth She has two decks, and carries three masts. She was built at Wilmington, Delaware, by Messrs. W. & A. Thatcher, and it is proposed to run her regularly between Washington and New York; and she will start to-day upon her first trip. The captain of this vessel is Capt. John D. Mershom, a regular old sea dog, who has been on the wave all his life. Capt. M. has lately been running between New York and Hilton Head and New York and New Orleans upon vessels of this same company. Mr. State Merris is the first mate and Mr. Alfred Palmer the second

mate, while the engule-room is under control ot Mr. Robert Best. The vessel is fitted up in magnificent style.

Upon the upper deck are six state rooms, which are furnished in a manner to please the most fastidious. The are also six state rooms off the cabin, fitted up in equally handsome style; while aft of the vessel are two rooms suitable for a family, and capable of accommodating eight or ten persons. The vessel is completely furnished throughout and is made

During the afternoon a most sumptuous col-During the attenuous and accordance was got up lation was served. This collation was got up steward of the ship, and Mr. A. Rodier, of the "White House" restaurant A number of speeches were made, the principal of which was that delivered by Mr. Morgan. This gentleman stated that eleven months ago the first ship of the line left New York for this port. Since that time four vessels had been placed upon the line, and the Fairbanks was the fifth. Virginia, Maryland, New York and Vermont had entered into the enterprise of the establichment of the line, and thus various sections of the country had joined in the scheme of uniting Washington with New York. In concluding his remarks, he trusted that the line might be generously patronized, and that a large and flourishing trade might soon exist between these two points.
Messrs. Morgan & Rhinehart are the agents

of the vessels here; Mr. Thomas Clyde, of Philadelphia, president of the steamship com-pany; Mr. Wm. B. Hatch, of New York, is treasurer; and Mr. J. B. Hutchinson, of New York, is secretary.

The Fairbanks will accommodate 40 pas-

sengers. The state rooms are supplied with numberless life-preservers, and in the constuction of the vessel care was taken to afford protection against fire, by making proper apparatus for the use of hose to extinguish any fisme. The company have shown a commend able enterprise, and deserve the patronage of those desiring to send or receive freight from New York, and of those traveling for pleasure

DECREE OF DIVORCE. - This morning, Judge Wylie, sitting in equity, made a decree divorcing Catherine M. Willard a vinculo mntrimonis from her husband Joseph C. Willard. The parties were married in New York in 1819 and removed to this city in 1853, when the respondent, in connection with his brother, started and conducted for some years the hotel known as Willards'.

The respondent states in his answer that it would be better that the marriage should be severed, and he therefore unites with the wife in her petition, feeling that the happiness of both would be promoted thereby.

John C. Kennedy appeared for the petitioner, and W. F. Mattingly for the respondent.

THE METROPOLITAN CHURCH .- The friends of the Metropolitan Methodist Episcopal Church enterprise met last night at the residence of S. Fowler, Esq., F street, near 7th, to consider ways and means to resume and complete the erection of the church edifice on the corner of 4% and C streets, begun years ago and suspended for lack of funds. The plan proposed is to appeal to the wealthy members of the church throughout the country without employing traveling agents as before. The completion of the edifice would be a very great improvement in the city.

FIRE.-About 9.30 last night, fire was discovered in the large boarding-house of Mrs. Fitzgerald, Pennsylvania avenue, between 3d and 1% streets. Roundsman Eckloff, with officers Thompson, O'Connell, and Lynch, were soon in the house, and, aided by a few citizens, extinguished the flames with buckets of water. The fire was located between the ceiling and roof, in an upper story, and was probably caused by the carelessness of a servant. The firemen were very soon at hand with their apparatus, but fortunately there was no need

DR. E. BUNFORD LIGHTHILL. Of 34 St. Marks Place, New York, author of a "Popular Treatise on Deafness," "Letters on Catarrh," &c., &c., is now in WASHINGTON and will be at the

EBBITT HOUSE

for one week, from Monday, February 29th,

until Saturday evening, March 5th, when he

can be consulted on Deafness, Catarrh. and all the various diseases of the Ear, Throat, and Air Passages.

Dr. L. is induced to make this visit on account of numerous applications for treatment from parties residing in Washington who are unable to come to New York for the indispensable personal examination. The practice in New York does not suffer any interruption by this visit, as his brother and his assistants are there in constant attendance.

The following testimonials, from well-known parties, are published for the benefit of those who are not acquainted with the doctor's reputation:

Letter from Rev. Dr. John Nott, Professor in Union College, Schenectady. Since I first publicly acknowledged the great benefit which I received from the skillful treatment of Dr. Lighthill, in regard to my hearing, letters of inquiry have incessantly poured upon me from all parts of the country from parties desiring to learn the particulars of my case, and I am indeed surprised at the number of individuals who are affected similar to the manner in which I have been, and therefore feel it more and more a sacred duty which I owe to those sufferers, to direct them to a proper and reliable source to obtain the benefit they so much covet, and which so many afflicted ones have hitherto sought in vain, just as I had done previous to applying to Dr. Lighthill.

I had had from infancy one very deaf ear which always discharged more or less offensive matter, and was the source of the greatest annoyance, and discomfort to me. Last year the other ear also became diseased, and both ears discharged a yellow matter very profuse and highly offensive. My hearing became very much impaired and the discharge produced the greatest debility of body and depression of spirits. I applied to my family physician and other practitioners without deriving any benefit, and almost despaired of being restored to health, when providentially, I applied to Doctor Lighthill. Under his treatment my ears began to improve at once and continued to do so, until, in a comparative short time, both ears were healed, the discharge removed, and my hearing restored. At first I feared the cure would not be permanent, or that the stoppage of a discharge of so long standing might prove detrimental to my general health, a fear which I find a grea many entertain in regard to the removal of discharge from the ears. My experience, however, has proved conclusively that my apprehensions were entirely groundless in both respects, for both ears are as well, and my hearing as good at present, as the day I left off treatment, and the stoppage of the discharge, instead of proving detrimental to my health, has given me the highest elasticity and vigor of body, and a flow of spirits not experienced for a long time previous.

I wish the above statement might serve as a general answer to those interested, but should one or the other desire to apply to me personally, or by letter. I will cheerfully satisfy all easonable demands upon my time.

I avail myself of this opportunity of again publicly expressing my deeply felt gratitude to Dr. Lighthill, whom I esteem as a gentleman and a man of science, in whom the highest confidence may be placed. JOHN NOTT.

From James Cruikshank, LL. D., Editor N. Y. Teacher, Albany, N. Y. This may certify that, having been afflicted

during the year 1856 with severe and almost total deafness, and having tried the ordinary medical and surgical aid, under the care of those esteemed as eminent practitioners, I was induced at last to put myself under the care of Dr. E. B. Lighthill. His treatment was brief and successful. I was completely restored, and the cure is apparently permanent. I have all confidence in Dr. L.'s skill and integrity in the diseases he makes specialities.

JAMES CRUIKSHANK. Albany, Oct. 1, 1862.

SPECIALTIBI , PATENT DOUBLE TUBE PIPE!

The immense demand for these Pipes since their introduction into the city of Baltimore in 1862 has led to the formation of an incorporated company, the investment of large capital and the erection of the most complete PIPE FACTORY in this country with novel and original machinery. For a year and a balf they have been subjected to popular use and criticism, and without advertising or special efforts have attained universal approval.

The difference between these Pipes and all others is implied in their title. They have simply two tubes throughout the stem instead of one. Through the upper tube the smoke is drawn in its purity and richness, whilst through the lower tube the water from the mouth and condensed nicotine descends to the cup at the bottom, whence it is easily discharged.

the cup at the Bottom, whence it is charged.

The advantages of this arrangement are obvious at first view to every smoker. The aroma of the smoke is not destroyed by passing through the accumulated filth as in other pipes, nor drawn back into the mouth, and the Pipe is preserved from becoming offensive as others quickly do.

These Pipes are for sale by retail dealers generally and wholesale by GEO. W. COCHEAN & CO.,
